Report of E. H. Edgerton, Town Agent

There are no suits outstanding in which the town is interested and nothing in prospect that I know about. During last year the overseer received a communication from the overseer of the City of Barre in regard to a bill which the City had had to pay for the Edson family. At the request of the overseer I sent to the overseer of Barre City a copy of the proceedings had to relieve this town of the expense. No reply has been received.

E. H. EDGERTON,

Town Agent.

Summary of Work Done by C. H. Dustin Special Commissioner, 1917

Length of finished road $1\frac{1}{2}$ miles and $\frac{1}{2}$ mile of unfinished.

This piece of road I straightened, ditched and graded making the road 21 feet wide.

The $\frac{1}{2}$ mile I straightened, graded and ditched but did not get it graveled.

I put in ten 12 inch, two 16 inch and two 18 inch corrugated iron culverts to take the place of the old wooden ones.

C. H. DUSTIN, Special Commissioner

Report of the Directors of Rochester Town School District

To the Auditors :

Gentlemen ;— In conformity to the requirements of law, the following brief report is presented for your consideration.

Thus far this year, only six schools have been maintained in the Town district, the schools at West Hill and at Little Hollow having been temporarily discontinued. At the opening of the fall term there were only four pupils on West Hill, and it was thought best to transport these to the Corner school. After several weeks six more pupils moved into that neighborhood, for a short time, but they were also transported to the Corner school, as it was difficult to secure a teacher and the expense of transportation was considerably less than that of running another school. It is expected that other families are to move onto West Hill in the near future, and, if so, a school may be maintained there next spring.

For good and sufficient reasons it has been found impossible to run a school at Little Hollow. Four teachers have been engaged for that school with the net result, a half day session. Three decided that they did not care to undertake the task and the fourth

taught the one half day. It is practically impossible to find a boarding place within a reasonable distance of the school, and other inducements are not sufficiently tempting to a teacher. The seven pupils in the Hollow are being transported, six to Bethel Gilead, and one to a Braintree school. The expense somewhat exceeds the normal cost of running the school.

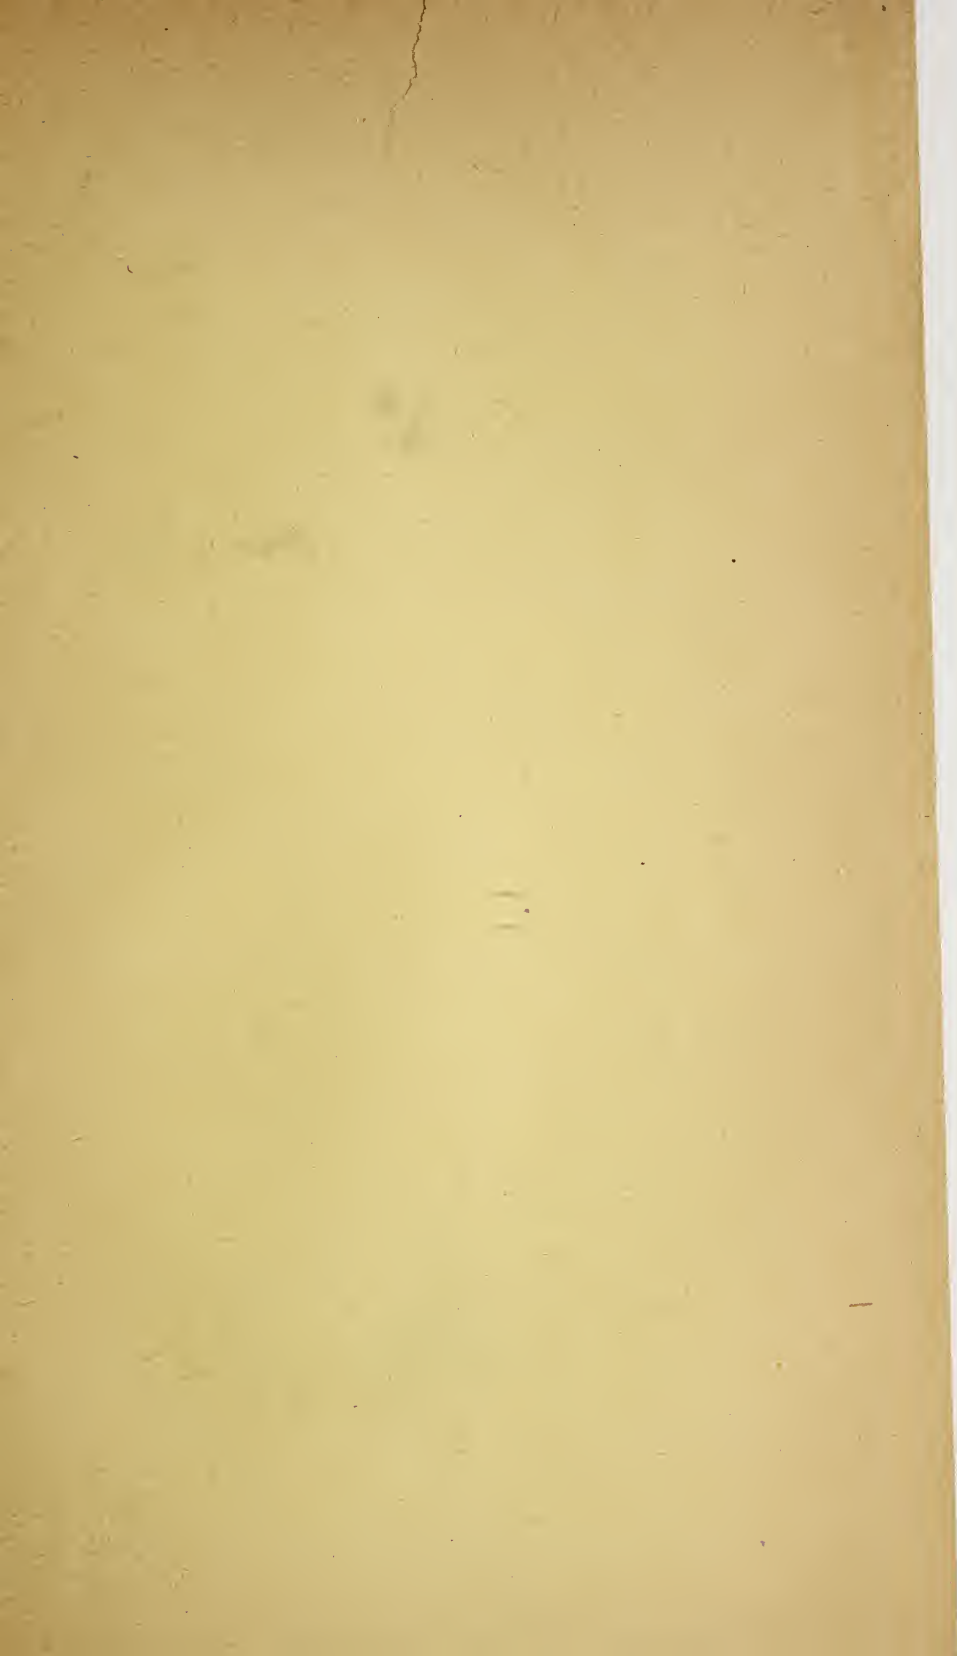

On account of the scarcity of labor and the high cost of material, no extensive repairs have been attempted. Before it was known that there would be no school at Little Hollow, repairs were begun on that building and these were completed. The building was newly underpinned, a new floor laid in the entry, new windows put in, and the inside painted and papered. These were absolutely necessary repairs. The total expense was about eighty dollars.

We believe that the six schools maintained are being ably conducted by their respective teachers and that, everything considered, the unusually severe winter and other abnormal conditions satisfactory results are being obtained and the money well expended

Respectfully submitted

The School Directors, by

B. A. Billings, chairman.
